

# Precision Corporation: Specialists in your outdoor living

By JUDY MARTINS

Contributing Writer

**Precision:** n., (pr. pre.sizh.en); the quality of being precise, accurate and exact; **perfection.**

Owners of Precision Corporation, Jason LaPonza, Mo Al-Rajabi and Nick Defazio take great pride in the *precision* of their complete professional outdoor services. Classmates and close friends in high school, and with extensive family backgrounds in construction, landscaping and remodeling, they loved working outdoors, and joined forces in making its restoration and beautification their life's work. Starting their company in 1998, they quickly earned a reputa-

tion for superior work, and in 2003 Precision Corporation made North Royalton its home at 8700 Akins Road.

Now with a wide range of state-of-the-art light and heavy duty equipment and over 40 professionals—each specialists in their field—they are one of the few contractors in Northeast Ohio specializing in all outdoor contracting needs. Offering the very best in quality, service and reliability, they are the local experts. Whether your home project is small or large—requiring a full landscape design and installation, concrete services, new sprinkler system, or tree service, Precision's management team coordinates the entire outdoor effort, seamlessly. Their

landscape work is backed by a one-year warranty and their hardscaping and irrigation systems a two-year warranty. With a list of more than 100,000 satisfied customers and references and still growing, they welcome the opportunity to provide you with the very finest in your outdoor living environment. No project is too big or too small; they do it all—with *precision!*

## Precision Landscape Design:

At Precision they work with you to create a custom lawn and landscape design that compliments your home and reflects your own personal sense of style. Incorporating unique planting and other design elements to fit your own taste and family requirements, they create a landscape that frames your home and flows as a natural extension of your indoor living environment. Your landscape ideas come to life with Precision Lawnscape, including landscape and lawn installations, retaining walls, paver patios, decks, landscape lighting, water gardens, and much more.

## Precision Tree Service:

Their professionals can provide expert care for the trees on your property, including tree, stump and shrub removal, tree trimming and topping, any necessary repair of drain tiles, delivering a seamless final result. "The Ash Borer is a recent enemy of our ash trees," said LaPonza. "Watch for symptoms such as peeling bark, D-shaped holes in the bark, leaf wilt, leaf loss and dying limbs. Once the tree is infected, it will kill the tree within two years. It should be removed to prevent the spread to other ash trees on the property."

**Precision Concrete Services:** Whether you're looking to increase functional space or create a focal point in your outdoor living area, you get all of that and more with concrete walkways, patios and other hardscape projects. Precision is skilled at designing and installing concrete work making these new projects natural extensions of the home and landscape—with beautiful effect. They do it all: specializing in

colored stamped concrete, walkways, patios, pool decks and pads, and decorative designs.

## Precision Irrigation Services:

“A sprinkler system is a good way to save money.” said Jason, “Moving the hose and soaking can waste water and get pretty expensive, whereas a sprinkler system evenly covers the yard at pre-set intervals. We have state-of-the-art trenchless equipment to install a sprinkler system on existing properties with no damage to the yard.” For automatic/automatic sprinkler systems for residential and commercial application, Precision Irrigation is the single resource for all of your sprinkler needs. From system design and installation to maintenance and repair, they do it all—keeping your yard looking its best

season after season. With year-round service coverage, they support their irrigation systems, offering a three-part maintenance program. It includes spring turn-on service, summer calibration, following by the system flush out or winterization in the fall.

The Precision Corporation office is located at 8700 Akins Road, Unit 3, in North Royalton, and is staffed year-round, Monday thru Friday, 8 a.m. to 5 p.m. Their highly trained and knowledgeable office staff, Colleen Capuano and Amanda Mavrikis, and their expert estimator, Glenn Anderson, can answer your questions and schedule a free consultation. Precision professionals will come to your home with diagnostics, estimates and creative design suggestions to reflect your own good taste and your individual family needs—and all within your budget.

For all of your outdoor needs, from tree removal to adding beautiful new life to your surroundings, call the experts at Precision at 440-843-9500. Visit their website at [www.precisioncorporation.com](http://www.precisioncorporation.com) for a listing of their complete outdoor services and dozens of photographs. Precision Corporation—your one-stop shop for all of your outdoor improvements.

*“Precision has built its reputation on the satisfaction of our loyal customers, one job at a time. On behalf of our entire team, we welcome the opportunity to earn your business, adding a new dimension to your entire outdoor environment.”*

## I'm Glad

*by Anonymous*

I'm glad the sky is painted blue;  
And the earth is painted green;  
And such a lot of nice fresh air  
All sandwiched in between.

Mo Al-Rajabi and Nick DeFazio, Owners; Amanda Mavrikis; Jason LaPonza, Owner; Colleen Capuano; and Glenn Anderson, Estimator.
